PRODUCT DESCRIPTION

Unleash your imagination and create the lighting effects that best suit your environment and mood.

The Avide SMART LED product line's WIFI models enable you to control your lights from your iOS/Android device. To do so, you only need to download and install the "Smart Life" app. Using the app, you may pick RGB and white colors ranging from extra warm white to cool white. The product is suitable for both mood lighting and use as a main light. Several LEDs may be controlled simultaneously, they can be grouped within the app based on their type or the rooms in which they are located, thus they can be adjusted quickly to your mood. Our product range includes Smart LEDs with different forms and bases.

Connect the product to your home WiFi network and control the lights from anywhere using the Smart Life app. Enjoy the advantages of remote access.

A timing option for switching on and off is available for Avide Smart LED bulbs. Using a variety of themes they can be customized, thus you may even create the mood of a sunrise in your own bedroom. In the "Scene" menu of the app various lighting profiles can be created.

You may find the detailed operating instructions in the box.

Our smart category includes numerous additional products. Learn more about these on the following link.
